

Feature:	Added The Ability To Toggle Zone Selections
Explanation:	To allow for easier selection when selecting invoice items within the <i>Undispatched Items</i> screen, the user can now click on a zone and all matching invoice items will be automatically be check marked. Clicking on the zone again will toggle (check/uncheck) all the matching invoice items. This functionality allows for multiple zones to be selected (check marked) at one time. Previously only one zone could be selected and all other items would be unchecked.

The screenshot shows the 'Undispatched Items' interface. A callout box points to the 'Zone' column in the table, stating: "Invoices items can now be toggled checked/unchecked by clicking on the zone link." The table lists various invoice items with their respective zones (East, West, South). The 'Zone' column contains links that can be clicked to toggle the selection of all items in that zone.

Priority	Pick Ticket	Invoice	Origin	Customer	Type	Amount	Invoice Print	Pick	Action Item	Zone

Feature:	Ability To Add Items To A Named Driver Route Without Assigning A Driver
Explanation:	The user now has the ability to assign selected items to a named driver route without having to assign a driver. After clicking on the <i>Add To</i> drop down selection and clicking on a named driver route, the user must then click on the <i>New Dispatch</i> button to create the dispatch. This allows the dispatcher to assign specific invoice items to a driver route that will go out later on in the day and keep the <i>Undispatched Items</i> screen with only the newest invoices listed.

The screenshot shows the 'Undispatched Items' screen in the eDelivery software. A table lists items with columns for Priority, Ticket, Invoice, Origin, Customer, Type, Amount, Invoice Print, Pick Date, Action Item, and Zone. A callout box points to the 'Add To...' button in the 'Controls' panel, which has opened a dropdown menu with options: 'Add To 10 O'Clock', 'Add To 1 O'Clock', 'Add To 3 O'Clock', and 'Add To Urgent'. The 'Add To Dispatch' button is also visible in the dropdown.

Priority	Ticket	Invoice	Origin	Customer	Type	Amount	Invoice Print	Pick Date	Action Item	Zone
0		749	ROYSTEST3	AMERICAN ACRYLIC	CHARGE	31.89	11/22/2016 9:03 AM			West
9	9	750	ROYSTEST3	CHUCK AND SAMS AUTOMOTIVE	CHARGE	17.79	11/22/2016 9:05 AM			East
9	9	755	ROYSTEST3	DIETERS V W REPAIR	CHARGE	21.20	11/22/2016 9:32 AM			West
9	9	756	ROYSTEST3	BETANCUR GARAGE	CHARGE	4.06	11/22/2016 9:34 AM			East
9	9	757	ROYSTEST3	CHUCK AND SAMS AUTOMOTIVE	CHARGE	17.79	11/22/2016 9:54 AM			East
9	9	759	ROYSTEST3	AMERICAN ACRYLIC	CHARGE	4.70	11/22/2016 9:54 AM			West
9	9	760	ROYSTEST3	VICK	CHARGE					North

Add To drop down button displays Named Driver Routes to assign items to.

Feature:	All Drivers Are Now Assignable
Explanation:	Previously within the <i>Drivers</i> screen, an <i>Assignable</i> check box field use to exist for each driver. This check box column field has now been removed and all drivers are now assignable when creating new dispatches.
